Summary

As a Brazilian native who now calls Australia home, I bring a diverse perspective to my work. My experience as a Mechanical Engineering student, Mathematics tutor and English teacher has sharpened my problem-solving skills and attention to detail. I'm always eager to learn new things, and my recent commitment to a career change has led me to explore full stack web development.

Currently, I'm studying HTML, CSS, Sass, Tailwind CSS, JavaScript, TypeScript, React.js, Express.js and MySQL.

I'm enthusiastic and motivated to take on new challenges and build a rewarding career in this dynamic field.
